

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### **Usage guidelines**

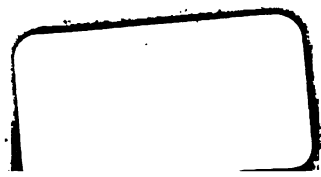

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### **About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. # CHICKERING PIANOS

CROSS OF LEGION OF HONOR AND GRAND GOLD  
MEDAL AT PARIS EXPOSITION. Used exclusively in  
THOMAS, SEIDL AND GILMORE CONCERTS at  
Madison Square Garden. For Sale, Cash or Instalments,  
also for Rent. NEW YORK WAREROOMS,

130 FIFTH AVE. COR. 18TH ST., N. Y.

## A WORD CONCERNING TONE.

**W**ITHOUT taking into account many minor considerations that may enter the minds of purchasers of Pianos, one must be mentioned as all-important: discrimination between *power* and *quality* of tone. A judicious decision on this point is desirable when the instrument is intended for the concert hall; when it is to adorn the drawing-room, a right conclusion is still more urgent. Quality of tone is, in fact, the great desideratum. This, once the production of pure tone attained through perfect mechanism, is wholly the outcome of absolute evenness throughout the registers of the instrument. No one of these should overbalance the others, the dynamic force of each being kept in strict proportion, so that bass, medium and treble can be regarded, not as three divisions of a voice, but as one faultless organ, whereof the many-hued tones blend by imperceptible gradations. The loveliest voice of the age—that of Mme. Adelina Patti—is distinguished above all others by this characteristic excellence: perfect evenness throughout its compass. It is this evenness, coupled with purity of vocal emission corresponding with the mechanically-produced tone already referred to, that endows the perfect piano as well as the perfect human voice with its singing-tone and carrying power. CHICKERING & SONS claim for the CHICKERING PIANO the very excellences here set forth as to be prized above all others; they make more even and perfect scales than are attained in any other instrument, and the exquisite singing quality is more fully developed in the CHICKERING PIANO than in any of its rivals. Just as diamond dealers of repute challenge criticism of their gems by direct comparison with others. CHICKERING & SONS invite comparison of their Pianos with those of other makers, and are desirous of having them judged wholly upon their merits. This crucial test of the CHICKERING PIANOS will, it is confidently asserted, establish beyond discussion its supremacy in all that constitutes the perfect instrument.

OPPOSITE DELMONICO'S, BRANCH OF 65 LONG ACRE, LONDON, ENGLAND.

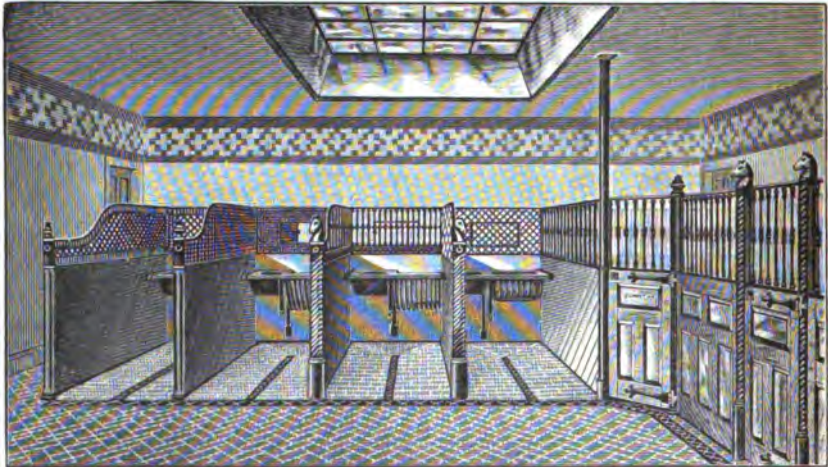

For over twenty years my make of London Harness and Saddlery has been used in the best establishments in the country and abroad.

I founded the London Harness Agency at No. 24 East Fourteenth Street in 1872, and since then my goods have been continuously before the American public, and met with unqualified approval on all sides.

The above Branch was opened to meet the requirements of my many patrons, and in order that they and the public should not be deceived with inferior goods, which are now, and have been for some time, sold as my manufactures.

My prices will be found exceedingly low, and my stock is complete with every description of Harness, Saddles, Horse Clothing, Whips, Bridles and all Stable Goods.

One of the least important parts  
but the most conspicuous,

One of the signs of a first-class carriage-maker is :

His varnish lasts a year with such care as a gentleman's coachman gives his carriage.

Next after the horses, the shine is what fills the eye and makes the bosom heave—of man and woman.

The varnish that lasts is the varnish that shines in December.

You would rather have him slight some less conspicuous part.

### LIVERPOOL AND NEW YORK.

Regular Sailings on Specified Courses during all Seasons of the Year.

**TWIN SCREW STEAMER "NOMADIC" AND "TAURIC."**

Specially constructed for the conveyance of Valuable Blood Stock. Speed. Subdivision. Fan Ventilation. Electric Light and Water Supply on each deck. Greatest Safety. These Vessels are specially navigated to avoid injury to Stock in bad weather. All Stock landed on the Company's Piers in New York for transfer to rail.

NOTE.—These Steamers have carried Sixty-nine per cent. of Sheep and Eighty-eight per cent. of Horses shipped from Liverpool to New York in 1891.

H. MAITLAND KERSEY, ESQ.,

DEAR SIR:—On the 13th August, 1891, we shipped thirty-nine Horses on the S. S. "TAURIC," Captain Roberts, White Star Line, and notwithstanding a somewhat rough passage, our Horses all landed in good condition, and can speak only in words of praise of the Company's accommodation and general management. Yours truly,

New York, 27th Oct., 1891.

DEAR SIR:—In reply to your letter of the 24th inst., on the subject of the carriage of Live Stock by your steamers, I have very great pleasure in giving my testimony to the fact that the White Star Ships are the quickest, safest and best adapted in every way for such purpose now crossing the Atlantic. I have been shipping horses of very great value from England to America and vice versa, and my experience fully justifies me in recommending the White Star Line over any other. Yours faithfully,

(Signed) WM. EASTON.
